Education

Full Stack Java Development (Full Time)
Masai School
Aug 2022 – Oct 2023

Bachelor's of Computer Application
Sunderdeep College of Management and Technology
Jul 2021 – Sep 2024

Technical Skills

- Frontend:** HTML, CSS, Javascript, Typescript, Angular, React
- Backend:** Java, J2EE, JDBC, SQL, Maven, Spring, Springboot, RestAPI, Spring Data (JPA, Hibernate), Spring Security (JWT, Oauth)
- Tools & technologies:** Jenkins, Git/Github, Docker, Kafka(Basic), Aws(EC2, Lambda), Redis

Certificates & achievements

- Full Stack Web Development Course** 🔗
- Problem Solving, Java, SQL Certifications** 🔗
- Prompt Engineering Certification** 🔗
AI tools and ChatGPT
- 300+ problems on Leetcode** 🔗

Soft Skills

- Team Collaboration
- Time Management
- Adaptability
- Interpersonal Skills

Interests

- Competitive Programming
- AI/ML
- Reading books

Professional summary

Skilled Software Developer with a strong foundation in building applications using Java, Spring Boot, and RESTful APIs. Eager to learn and grow in backend technologies, with exposure to the frontend technologies for full-stack versatility, microservices and High-level System Design concepts.

Professional Experience

- Software Developer Trainee**
Vista Neotech Pvt Ltd.
Aug 2024 – Mar 2025
- Developed and maintained Android applications built in Java.
 - Successfully resolved website bugs and led to notable web functionalities.
 - Led the team to successfully launch a new product.
 - Implemented third-party APIs in applications.
 - Created backend solutions using Node JS, Express JS, and SQL.

- SDE Intern**
Prompt Personnel
Nov 2023 – May 2024
- Collaborated with team members to develop projects from scratch.
 - Created applications using Spring Boot, JPA, Hibernate, RESTful APIs, and Spring Security.
 - Optimized website performance and reduced page load times by 30% and enhanced user experience

Projects

- Airline Reservation System** 🔗
- Built a comprehensive flight booking system to manage airline bookings.
- Secured admin access with role-based authentication and authorization using Spring Security and JWT Tokens.
 - Deployed the backend application on EC2 Server.
 - Implemented automated build and deployment pipelines CI/CD using Jenkins.
 - Created services for booking, Flight, Airport, ticket management, and schedule updates with microservices architecture.
 - Email Notifications on successful flight booking.
- Tech Stack** - Java, Spring Boot, Spring Security, MySQL, React

- QuesTyme – Interview & One-on-One Session Management Platform** 🔗
- Features :
- Student creation (Single-user/Bulk-user)
 - Create Interviews(Single Interview /Bulk Interview)(Admin)
 - Update interview & cancel interview (Admin)
 - Create a One-on-One Meeting slot (Admin)
 - Status of slots (Admin)
 - Students can search instructors by category where they see all available slots for this particular instructor and can book a slot
 - Past Interviews & Upcoming Interviews (Both)
 - can search interviews by name and batch (Both)
 - Student notes & admin feedback
- Tech Stack** - Java, Spring Boot, Spring Security, JWT, SQL, AWS, React

- TRIPTALESPAY** 🔗
- Triptalespay.com is a multi-service platform that offers functionality for Recharge & Bill Payments (Mobile recharge, Flight, Hotel booking, Wallet, Gas & Electricity bill payments, etc).
- Implemented Recharge & Bill payments, Hotel & Flight APIs.
 - Used JWT for user login and securing API calls and role-based access control system for admins and sub-admins.
 - Implemented OTP verification messaging services for user registration.
 - Integrated a KYC feature to verify user identities.
 - Deployed on IIS server, and implemented rate limit strategy to prevent abuse, manage traffic, and ensure fair API usage
- Tech Stack** - Node, Express, SQL, SQL Procedure, Angular, Bootstrap
